

My Pet's Vet

Avian Check-In Sheet

Bird's Name?

Bird species?

Male or female?

Age?

Where and when did you acquire your bird?

Has your bird had previous owners?

Name brand of pelleted food?

List what you feed and the frequency (i.e., pellets, fruits, veggies, bread, pasta, Cheetos, Doritos, ect.).

Any contact with other birds? If so, list all types.

How active is your bird?

What does he do for fun?

In what room is the cage kept?

How big is the cage in dimensions?

Where does he sleep?

Is his cage covered at night if he sleeps in it?

How much time does he spend out of his cage in a day?

Is he eating normally or have things changed in last few years?

Does he have a favorite person?

Do you have a mirror or bird shaped toys in the cage?

Fill this section out *only* if your bird is feather picking.

Do any other birds around this bird have any problems?

Have you moved in the last 2-3 years?

Any people leave or come to the household before the picking started?

Any animals leave or come to the home recently before the picking started?

Does he seem stressed?

Does he seem stressed when his favorite person is gone?

Any long absences or vacation in your family before the picking started?

Has he ever had any nesting behavior, where he takes toys into the nest or makes a nest?

When do you see him pick at himself the most?

Does he ever draw blood when picking?

Does he pick at new feathers as they grow in?

Does he chew at his cage?

What do you do when you see him picking (yell at him, ignore him, spray with water, etc)?

Answering these questions as completely as possible will help us decide what to do!

☺
